Bareos@FrOSCon 2019

2019-07-04 14:55

Every summer, the Department of Computer Science at the University Bonn-Rhein-Sieg and the FrOSCon e. V. association organize a meeting in Sankt Augustin. "Free Software and Open Source" is the motto of the conference that will take place on August 10 and 11, 2019. The organizers have put together an exciting program with lectures and workshops for visitors of all ages.

The Bareos team will be in Sankt Augustin again. We're part of the exhibition – so, come around and say "hi".
